

**2011 CTUIR LSRCP O&M Final Performance Report 10/10-9/11**  
**Production Coordination Activities**  
**Agreement #14110-B-J014**  
**October 4, 2011**

The CTUIR LSRCP O&M Statement of Work is a set of tasks specifically related to production coordination activities under the LSRCP program that are associated with management of fisheries within CTUIR ceded and usual and accustomed areas. The project partially funds a production coordinator position along with the corresponding administrative support and travel required to participate in the various coordination and planning forums directly related to LSRCP hatchery programs of which CTUIR is a co-manager. Following is a bulleted summary of significant activities performed by the production coordinator position during the period that extended from October 1, 2010 through September 30, 2011. No problems were encountered which impaired the ability to meet the agreement objectives.

- Reviewed and commented on multiple LSRCP hatchery HGMPs and the Snake River fall Chinook HGMP Addendum.
- Participated in LSRCP Annual Operations Plan meetings for Lookingglass Hatchery (Northeast Oregon) and Lyons Ferry Complex (Southeast Washington).
- Coordinated LSRCP hatchery activities related to CTUIR co-managed programs as necessary with co-managers.
- Participated in other forums and activities related to LSRCP hatchery programs including attendance at both Snake River Fall Chinook coordination meetings, the LSRCP spring Chinook program review, the LSRCP Hatchery Managers Annual Meeting and the Northwest Fish Culture Conference in Portland, Oregon.
- Participated as a member of the Production Advisory Committee (PAC) within U.S. v. Oregon.
- Participated in the Accords process as related to LSRCP programs.
- Participated in the development of planning and management documents relative to LSRCP hatchery programs including sliding scales for adult management at weirs, marking, and a management plan for Lookingglass Creek.
- Participated in other hatchery related processes related to LSRCP including reviews and comments on Northeast Oregon, Southeast Washington, and Snake River Fall Chinook Recovery Plans.
